Reasons Why A Refund Might Not Be Issued

- Improper packaging. All instructions on this page must be strictly adhered to. The packages are not treated gently during shipment, and without the proper packaging the products can easily become damaged. It is the customer's responsibility to make sure the merchandise is protected for shipment.
- Damaged Product - Under no circumstance will MOTORSPORT TECH accept a return of product that is damaged due to the negligence of the customer or for not following the instructions herein for proper packaging and shipping! Remember, the wheel spacers are still your (the customer) property until we get them back.
- Packages are lost by the shipper in transit to us. In this event, it is your responsibility to contact the shipper and file an insurance claim. We are not responsible in any way for packages shipped by you until we actually receive them.

Manufacturer's Warranty

- All products sold by MOTORSPORT TECH carry out Limited Lifetime Warranty. MOTORSPORT TECH will be happy to help when a warranty problem arises. However, beyond our Limited Lifetime Warranty, there are no warranties, express or implied, including any warranty of merchantability or fitment for any particular purpose, by MOTORSPORT TECH.
- Customer pays for shipping and handling to Motorsport on all warranty claims. We will pay the return shipping if we cover the purchase under our warranty.

Please see our Limited Lifetime Warranty on our website.

Shipping

- Shipping takes place on or over business days only (no weekends or holidays). For example, an item shipped on a Friday via 2 Day Air will arrive on Tuesday.
- Typical ground shipping usually takes place in 7-14 business days. We are not responsible for delays caused by the shipper.
- Please call us (775) 351-1000 to check on stock availability, timeframe, or to discuss Priority Ordering (at additional cost, we can accommodate your need for faster processing).

- The process of getting these parts to you is extensive and dependent on factors like availability of raw materials, our current workload (we manufacture tens of thousands of adapters and spacers every year), holidays and weekends, etc. Building adapters and spacers is a highly technical process which takes time to do accurately and correctly. Please expect that wheel spacer and wheel adapter orders could take up to 3 weeks to complete, although normally we can get them to you in 1 to 2 weeks.
